Patient Support Programs

Transform Patient Adherence. Optimize Program Results.

Introducing spencer®, the innovative smart medication dispenser designed to empower patients and revolutionize patient support programs.

Tired of battling low medication adherence rates?

You're not alone. Non-adherence is a major hurdle for patient support programs.

spencer is the answer

97% Medication Adherence*

With engaging reminders and simple dispensing, it's easier for patients to take their medications.

90% Patient Engagement*

Patients answer health status questions by touchscreen providing better visibility into adherence.

* As reported in 2022 Spencer Health Solutions' commercial pharmaceutical programs and patient populations.

More than just a medication dispenser, spencer is a powerful tool that helps you:

Patient Engagement:

User-friendly features and timely reminders keep patients engaged and care teams informed.

Drive Adherence Rates:

Say goodbye to missed doses. spencer empowers patients to stay on track, leading to better health outcomes.

Gain Valuable Insights:

Real-time data and reporting provide actionable insights to optimize your program.

Connect with the Care Team

Seamless Communication:

The healthcare provider or pharmacist can connect through video consultations on the device.

The patient can easily ask questions, address concerns, and receive personalized guidance – all in one convenient place improving adherence.

Easy to Open Pill Pouches

Simple & Easy:

We understand the importance of convenient medication access. Our user-friendly packaging makes managing medication routine effortless.

Designed for the Patient:

Open the pouch, take your meds, and go! Our easy-open packaging puts the patient in control of their health.

Never Miss a Dose Again

Sound and Visual Alerts:

Remind the patient to take the medication on time and as prescribed.

Tracking Doses:

Each dose is tracked giving the patient, caregiver, and healthcare provider peace of mind.
